

The Introduction of FlowSafe Engineering

FlowSafe hereby takes pleasure in announcing the formation of our new sister company, FlowSafe Engineering (Pty) Ltd, which was established on the 9th of June 2017 and officially started trading on the 1st of February 2018.

FlowSafe Engineering is headed up by Shane Fitzgerald, Our Technical Director & Wayne Franzsen, Our Sales and Production Manager. They both have many years of experience in the Transport industry and with their expertise and dynamic industry knowledge, we are excited for the journey ahead.

We're an Original Equipment Manufacturing Company aiming to cater to the vast needs of the Transport industry.

FlowSafe Engineering is based at the same premises as its sister company, FlowSafe Equipment and share the same offices and workshop.

FlowSafe Engineering specializes in supplying and installing various hydraulic systems and components for the transport industry:
