

FlowSafe Rebrands After 29 Years

After 29 years, we decided to give our brand a new look and feel of what and where we are today.

Our original slogan was “*Our Quality - Your Safety*”, it then changed to “*We Keep You Moving*”. So in saying that as we move closer to celebrating 30 years of business, we still supply our customers with quality and safe products to keep them moving forward.

Our commitment over the last 29 years and into the next 30 years is if you choose to use FlowSafe and its products , we will be “*where YOU are*” to support and assist our loyal customers.

We unveiled our new brand identity at the Interbilt Trucking Festival on the 26th and 27th of September 2018 which was a huge success. All the excitement and positive feedback we received from our existing customers and suppliers was so rewarding.

As you can see, it's much more than just a new logo, it's a Brand New Identity.

We have grown so much after 29 years as a company, but most of all as a family. Today we are 19 dedicated staff members building our future and working together to sustain our family orientated business and to grow it even more for many more years to come.

Our New Brand has not only inspired us as individuals, employees or as a company, but also our current customers, suppliers and future business relationships.

This is why we can confidently say *where YOU are* – whatever, whenever, wherever.
